

A top-down view of a person's hands working on a laptop. The person is wearing a yellow sweater. Their left hand is on the keyboard, and their right hand is holding a white mug with a pink handle. The laptop screen shows a blurred image of a keyboard. A black pen lies on a dark surface above the laptop. A dark blue semi-transparent banner covers the left side of the image, containing the Mimecast Education logo and the title 'Certification Program Guide'.

Certification Program Guide

Mimecast Education Certification Program

Program Overview

Mimecast Education offers a two-level certification program. Mimecast Certification assures you to achieve mastery at the highest level of Mimecast expertise, giving you the peace of mind for business-critical cyber security solutions.

Email Security, Cloud Gateway

Fundamentals: This is our Level 1 technical training focusing on the Email Security, Cloud Gateway product. In this path, you will learn the fundamentals of Email Security, Cloud Gateway, be introduced to the product concepts of how to keep email flowing and how to access live and historical mail. It also provides an understanding on account analytics, reporting and threat intelligence.

Email Security, Cloud Gateway Advanced:

This is our Level 2 technical training and builds on the Fundamentals course. In this path you will learn how to fine tune your skills and dive a bit deeper into understanding and analyzing cyber threats, administer and configure end user applications.
