Request to Attend Mimecast Elevate in [City]

Email Body

[Manager's Name],

I've been invited to attend Mimecast Elevate in [City], a premier event for cybersecurity professionals. This is a great chance for me to stay ahead of the curve, especially when it comes to AI-powered solutions to secure Humans, Data and AI, which tie directly into our team's goals and our company's cybersecurity objectives.

Why I think it's worth attending:

- **Improve risk management:** I'll learn about new ways to protect our people, as humans cause 95% of data breaches and can often be the source of sensitive data loss though ChatGPT, Claude, or other GenAI tools.
- **Opportunity to scale with best-in-breed technology:** I'll gain actionable insights and updates on Mimecast's latest product features and functionality across email & collaboration threat protection, insider risk management & data protection, data compliance & governance, and security awareness & training,
- **Learn best practices with executive peer collaboration**: I'll be hearing from regional and global peers and industry leaders on their how-tos, why-nots and why-nows in achieving diverse outcomes, which will be an excellent addition to my professional development plan in 2026.

Event Details:

- Date: [to be filled in]
- Venue: [to be filled in]
- Cost: Complimentary

If I have your approval, I'll share a full summary and key takeaways with the team afterward. The event has limited seats, so I'd like to sign up right away.

Thank you for your consideration.
