

# Empower your administrators and end users with Mimecast knowledge and best practices

The goal of Mimecast Education is to give your team the skills and knowledge to get the most out of Mimecast. Whether you are just getting started with our technology or are looking to up-level your skills, you'll find courses designed to help you maximize the use of your services, unlock the full power of the platform, increase utilization of end-user apps and features, and make your organization safer.

Our education platform offers live instructor-led training, delivered virtually in multiple regions around the globe. Mimecast Education will help you define a level of Mimecast competency for your own IT and security team.
