

# Mimecast Education Protect Plans

Must have security and resilience for the education sector

Protect your students, staff, and intellectual property against the evolving cyber threat landscape. Educational institutions are incredibly rich targets for cybercriminals – large volumes of data, valuable intellectual property, numerous access points, and a continuously changing student body that’s difficult to train and secure. The Mimecast Education Protect Plans provide AI-powered security to Microsoft 365 and Google, delivering a layer of protection that defends against highly sophisticated attacks. Education institutions choose Mimecast to enhance cloud email security, defend against disruption, and ensure data is never lost.

## Mimecast Education Protect Plan includes:

- **Improve M365 email security efficacy**  
**Secure Email Gateway with Targeted Threat Protection** protects the #1 threat vector from attacks including business email compromise, ransomware, and phishing at your gateway.
  - **Integrated, agnostic Browser Isolation**  
**Browser Isolation** provides 100% protection for advanced web threats delivered via email covering all browsers and devices, not just Edge.
  - **A.I. behavioral analysis and dynamic bannerings**  
**CyberGraph™** understands your users to intelligently augment security with anomaly detection.
  - **Advanced detection applied to all email traffic**  
**Internal Email Protect** extends security to internal and outbound email to identify compromise and reduce impact for you and your supply chain.
  - **Simple and rapid remediation**  
**Internal Email Protect** automates remediation with a single dashboard with no PowerShell required for manual intervention.
  - **Share intelligence across your ecosystem**  
**Mimecast Intelligence and Open API** provides 70+ APIs & integrations to share intelligence and augment your security suite.
- 
- ### Mimecast’s 365 Protect Plan + PLUS
- Includes everything in Mimecast 365 Protect plus...
- **Maintain 100% email uptime**  
**Email Continuity** keeps your #1 communication tool available even when Microsoft is not with integrated applications and event management.
  - **Fast, easy data restoration**  
**Sync and Recover** makes it easy to recover from data loss and corruption from a secure and independent source.
- 
- ### Recommended Add-On
- **Brand protection**  
**DMARC Analyzer** allows you to monitor email domain usage and to prevent misuse of your domain to protect your brand.
