

Aware Services Sub-Processors

Mimecast has contracted with certain third parties, as well as Mimecast affiliates, to act as sub-processors in assisting us to provide our services to you. A sub-processor is a data processor who processes certain data (which may contain personal data) as part of the services. This page identifies these third-party sub-processors and the assistance they provide to us for Aware services.

The following Aware services are covered under this document:

- Signal
- Spotlight
- Search and Discover
- Data Management Applications

It is important to note that security and personal privacy is of utmost importance to us. Accordingly, we impose data protection terms on sub-processors that we work with to maintain high security and to enforce data privacy. Details of our data processing policies in relation with the sub-processors we work with can be found in the Mimecast Data Processing Addendum.

This list of Mimecast’s sub-processors was last updated in April 2025.

SUB-PROCESSOR	PROCESSING LOCATION	REASON FOR PROCESSING
Amazon Web Services, Inc.	United States	Data science model development and evaluation data center provider
