

Certification Program Guide

Mimecast Education offers a two-level certification program.

Mimecast Certification assures you to achieve mastery at the highest level of Mimecast expertise, giving you the peace of mind for business-critical cyber security solutions.

Email Security, Cloud Gateway Fundamentals:

Exam: 50 questions / 60 minutes | Valid for 2 years

The Secure Email Gateway Fundamentals Certification is intended for anyone new to the Mimecast product or needing

to learn the core knowledge required of any cybersecurity administrator role. This is intended for all levels of Mimecast administration.

See our full exam guide for more in-depth information on this certification:
