## How Are UK Companies Affected?

Tick the boxes that apply to your business to assess the impact of DORA on UK-based companies:

**19. Does your company provide essential or digital services to EU customers?**

- Yes
- No

**20. Are you part of a supply chain for EU-based organisations that may require NIS-2 compliance?**

- Yes
- No

**21. Do you have IT systems, operations, or partnerships that span across the EU?**

- Yes
- No

**22. Are your cybersecurity measures aligned with the UK's NIS Regulations?**

- Yes
- No

**23. Have you assessed the need to register with the appropriate EU authority if you conduct significant business in the EU?**

- Yes
- No

**24. Do you need to evaluate or enhance your current IT security systems for compliance with both EU and UK standards?**

- Yes
- No

If you answered "Yes" to any of the above questions, your UK business may need to take further action to align with the NIS-2 directive.

## What Should You Do Now?

### Registration Requirement:

If you operate in the EU you should register your company with your national regulatory authority. This includes:

- Providing relevant company details
- Sharing information on implemented security measures

### Next Steps for UK Businesses::

- Review your exposure to EU regulations with your legal team and ensure compliance where applicable.
- Strengthen your IT systems to meet NIS-2 standards and align with UK's NIS regulations.
- Seek professional advice if necessary to understand your obligations and mitigate risks.
